# Mindset

1976

Now companies  
are judged by  
what they do for  
the planet, and  
not what they  
say they will do.

- > 250 employees
  - > € 40 Mill. Turnover / or

# Learning a language vs. vocabulary test

gets | script | space | attic | congestion | increased | revived | stunning |  
declined | shot | survival | deteriorated | cottage | unique | basement |  
setting | bungalow | disappeared | series | outskirts | memorable |  
cast | episode | terraced | competition | impressive

1. The \_\_\_\_\_ of languages spoken by a few thousand people is in serious doubt.
2. I can't wait to see what happens in the next episode. It's on Monday.
3. This map is absolutely \_\_\_\_\_. It's the only one of its kind.
4. The hotel is in a perfect \_\_\_\_\_: near the sea and the city.
5. We live in the \_\_\_\_\_ of the city, and my commute to work is not too long.
6. The club closed because membership had \_\_\_\_\_ by over 50%.
7. When I realised he had lied to me, our relationship deteriorated even further.
8. It's difficult to find a parking space near the cinema, so let's take the car to the garage.
9. I don't know what's in the attic. I never go up there.
10. It's a Spanish film, but it was largely \_\_\_\_\_ in Argentina.
11. It's not easy living in a terraced house if you have noisy neighbours.
12. When city life \_\_\_\_\_ me down, I dream of living in a \_\_\_\_\_ country.

*let's be like*

2023

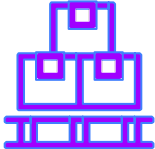

1. Define ESG/sustainability **Goals**

2. Establish a clear **Baseline**

3. **Operationalize** sustainability goals

# Whoooo...you look so slim from a distance.

Supplier

Procure

*Direct and indirect spend*

Site

Fulfill Service

Customer

## Scope 3 - Upstream

 Purchased goods and services

 Capital investments (buildings & equipment)

 Inbound logistics

 Disposal and treatment of waste generated in operations

 Business travel and employee commuting

 Buildings and vehicles taken on lease

## Scope 1

**Direct** emissions from controlled facilities  
 Combustion of fuels and release of refrigerants in controlled facilities

## Scope 2

**Indirect** emissions from energy procured  
 Purchase of electricity and heat in controlled facilities

## Scope 3 - Downstream

 Processing of sold products

 Usage phase of the sold products

 Outbound logistics

 End of life disposal of sold products

 Franchises and investments

 Buildings and vehicles given on lease

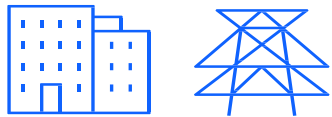

# How to turn sustainability ambition into action (really!)

## Sustainability Strategy and Roadmap

---

## ESG Data, Reporting and Risk Management

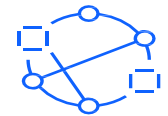

---

Intelligent assets,  
facilities and  
infrastructure

Responsible  
computing and  
green IT

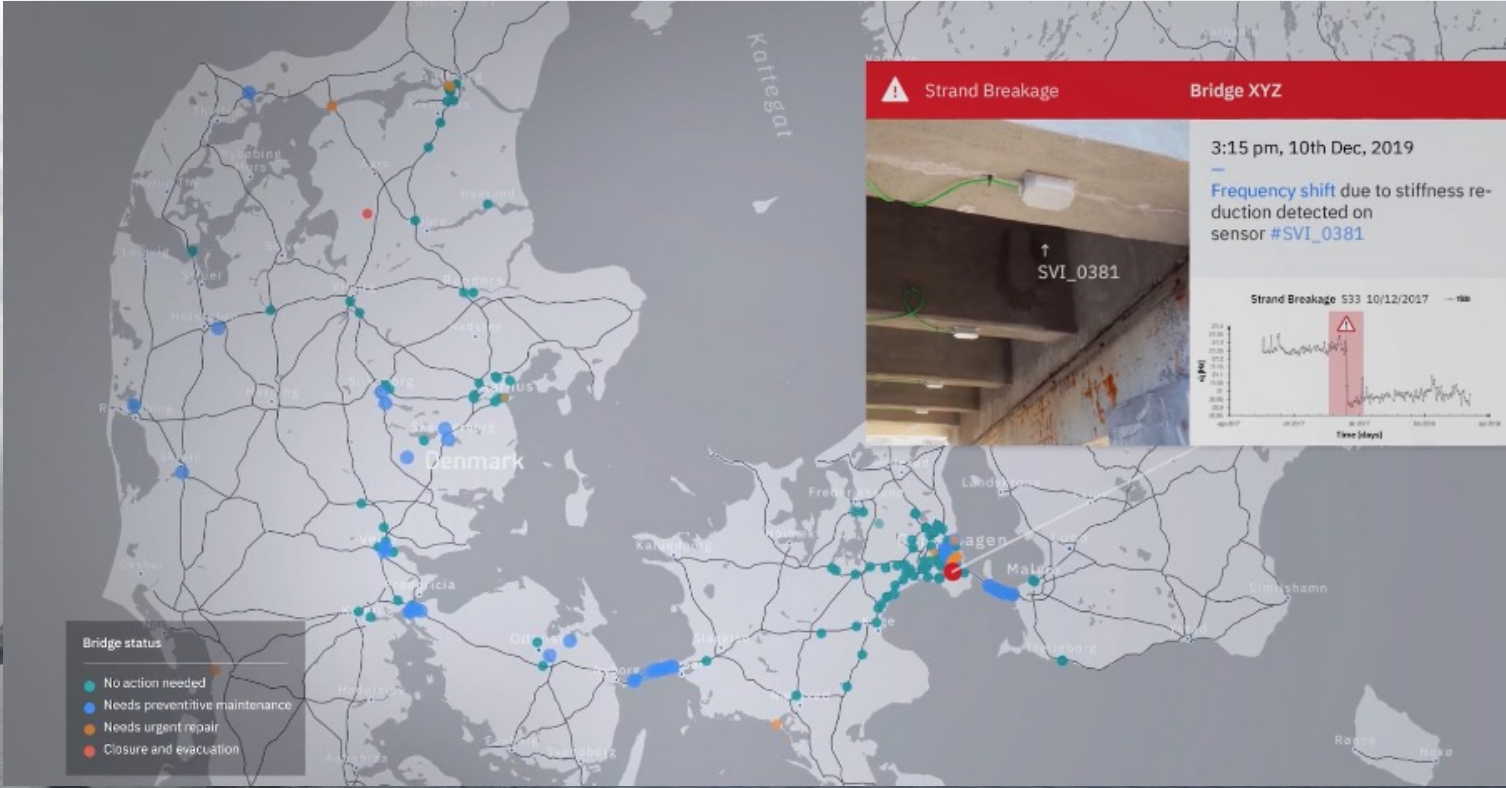

Sustainable  
supply chains and  
circularity

# Sundt & Baelt

Extended the expected life span from **100** to **200** years

Reducing the carbon footprint by **750,000 tons of Co2**

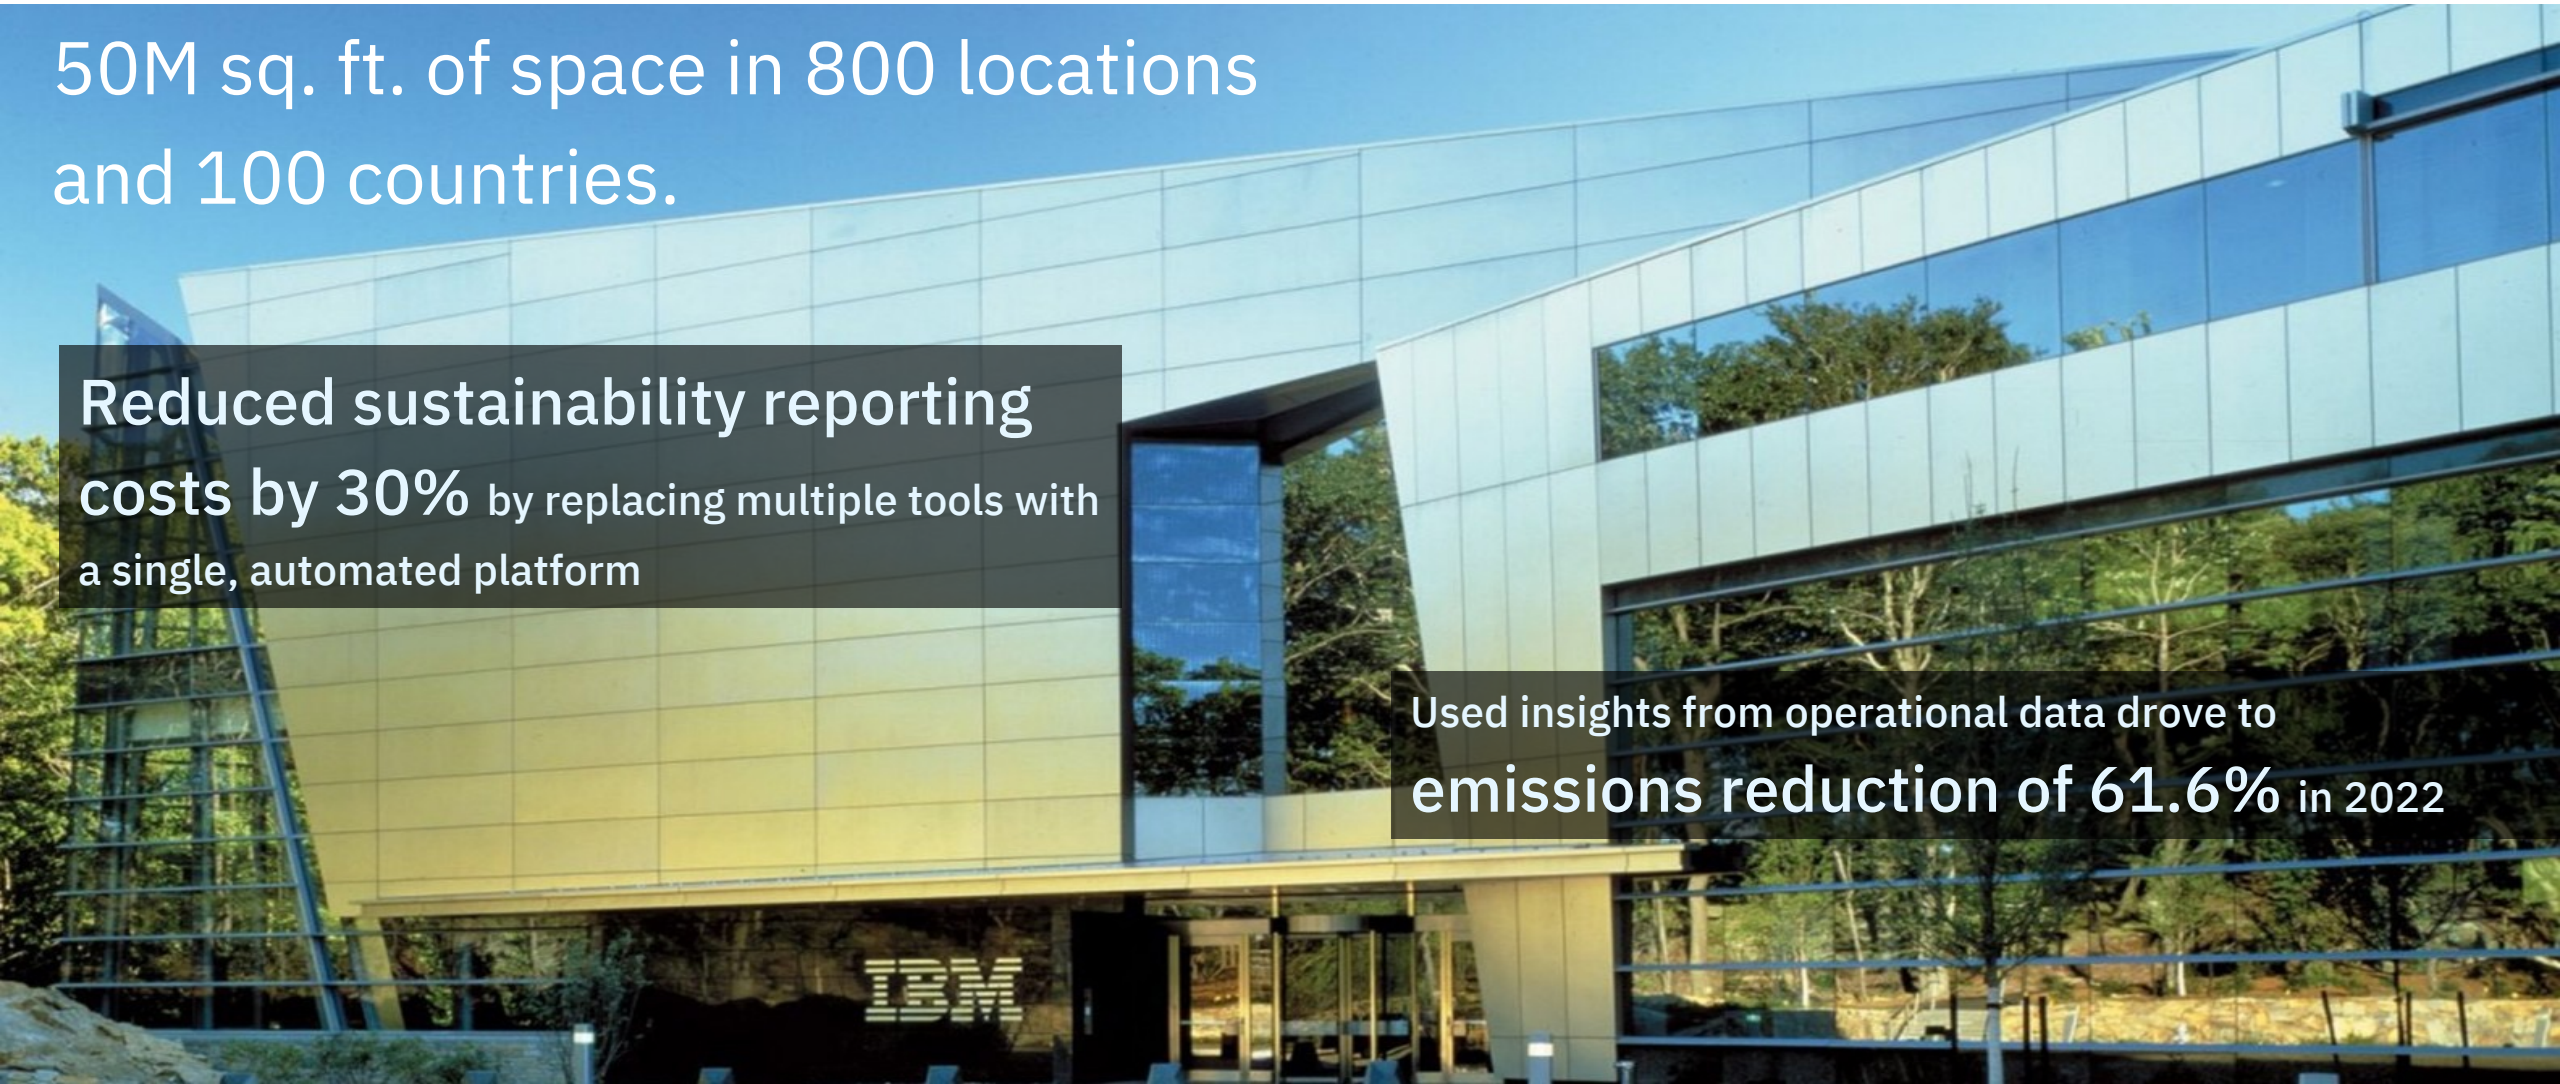

IBM - we eat our own cookies ;-)

50M sq. ft. of space in 800 locations  
and 100 countries.

Reduced sustainability reporting  
costs by 30% by replacing multiple tools with  
a single, automated platform

Used insights from operational data drove to  
emissions reduction of 61.6% in 2022

Thank you

Oliver Gahr
