

# NETAPP AFF C190 EXPRESS PACK AND FABRICPOOL PROMOTION

Did you know that as much as 50% or more of your storage has ‘cold data’ such as copies that have never been accessed once they were created? Take back your high-performance flash capacity!

The NetApp AFF C190 with up to 50TB of effective capacity now allows customers to use FabricPool to expand their available capacity to the cloud. Infrequently used data is automatically and seamlessly moved to lower-cost storage in the cloud. When customers need that data again, FabricPool automatically and seamlessly moves it back to their high-performance AFF C190.

FabricPool is now available to quote with the AFF C190 which means that NetApp offers special AFF C190 FabricPool parts with AFF C190 pricing! And by taking advantage of a limited time promotion to get you going, you can help your customers get 10TB of FabricPool with 3 years of support for free!
